9. When providing the data to answer the above questions, please confirm whether the number of more thorough searches involving exposure of intimate parts is included in the total number of more thorough searches. For example, if there were 20 'more thorough searches' in the year X and 8 'more thorough searches involving exposure of intimate parts' in the same year X, please confirm whether those 8 MTSEIP have already been counted in the 20 MTS.

We have used the search criteria (MORE THAN OUTER CLOTHING REMOVED) to identify the data for 'more thorough searches', this **does not include strip search data**. Where 'more thorough searches involving exposure of intimate parts' data is required, I have used 'strip search' as my criteria.
